

# SILVER SHIELD

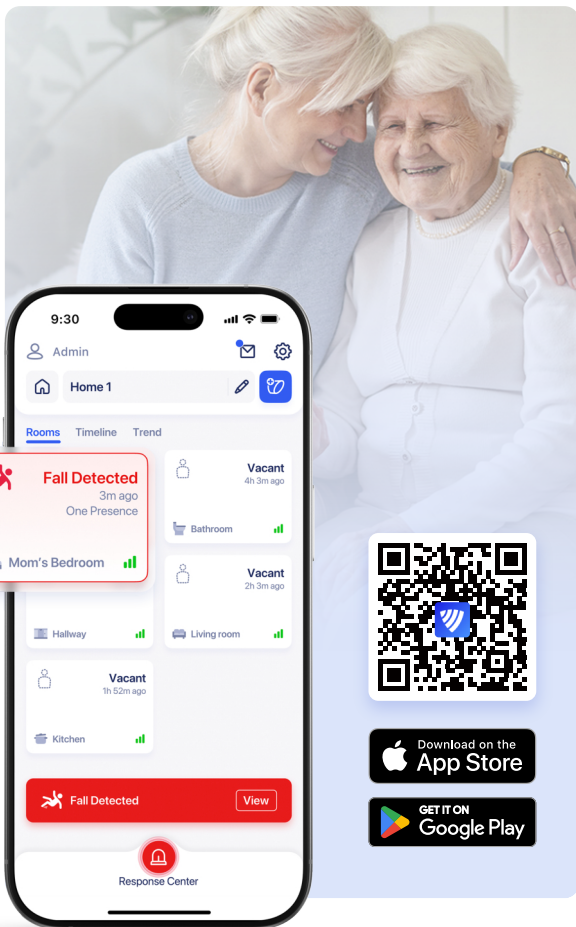

## Intelligent Home Monitoring for Senior Safety & Care

### Monitor Your Loved Ones, All in One Place

Silver Shield is a complete, non-intrusive home monitoring solution designed to help you care for elderly family members with confidence, while maintaining their privacy. Using advanced ambient mmWave sensors, Silver Shield tracks real-time movement and location throughout the home. This gives you 24/7 visibility into your loved one's safety and wellbeing.

With the Pontosense Care app, you can instantly check in on their location, view daily activity trends, and receive insights that help you provide proactive, responsive care from anywhere. Peace of mind is just a tap away. With Silver Shield, you're always connected while preserving their independence.

### Features at a Glance

#### Privacy-First Technology

Ambient sensing upholds privacy in the most private home spaces, like bedrooms and bathrooms. No cameras, microphones, or wearables needed.

#### Easy Set-Up

Install the device in less than 5 minutes using the step-by-step guide in our app: simply plug in the device and follow a few simple steps to get started.

#### Daily Activity Monitoring

Real-time occupancy detection, head counting, and multi-person motion tracking with bed exit alerts for caregiver notifications. Enhance safety with daily routine and mobility pattern insights.

#### Emergency Response

When triggered, the PERS system sends an automated text message to designated emergency contacts and escalation to call centers, adding a safety net to ensure help is on the way.

#### Fall Detection

Silver Shield uses advanced motion analysis and AI algorithms to detect falls with high precision, identifying subtle changes in movement to trigger fast and dependable alerts.

#### Wellness Trends & Insights

Support proactive care with intelligent monitoring and a clear timeline view that highlights changes in movement, room usage, and sleep patterns.
